

"Order Form" for Low Cost Spay / Neuter voucher

Approximately 34,000 pets are killed each year in our tri-state animal shelters. There are too many pets, not enough homes. We recommend getting your pet fixed at about 4 to 5 1/2 months old. Pets may start spraying or get pregnant at about 6 months of age.

Below are 2 tables to help you quickly understand the offerings of several of our Low Cost Spay / Neuter providers. When you use the voucher, the vet bills our rescue \$25. We do this service to help you either get a great special rate because you have our "rescue voucher", or simply to put you in touch with quality low cost spay/neuter providers. Pets can be fixed when in heat or pregnant but PLEASE don't wait that long.
